## Shinkin Central Bank (SCB)

The SCB is the central financial institution in Japan for the nationwide network of shinkin banks, comprising 254 banks and approximately 7,100 branches. Japan's shinkin banks have an extremely important role in the financial industry, holding around ¥158 trillion (\$1,298 million) in deposits. The SCB provides various financial products and services, and uses the abundant funds deposited from shinkin banks throughout Japan to invest in marketable securities in the financial markets in Japan and overseas, as well as to provide loans to operating companies and so forth.
